FIXES:

Employee login:

1. Sider module order:

- Dashboard
- Attendance
- Leave Management
- Payroll -> under Loans & Advances (but need to discuss)
- Reimbursements
- Calendar
- Employee Directory
- Document Hub
- Assets -> hided not in the base plan
- Learning -> hided not in the base plan
- Notifications

Removed my from all menus

2. My profile:

- My profile Removed from the menu
- In my profile add salary structure in payroll , enable it in view mode also
- Removed over view , view mode texts
- Edit option only for the employee basic details balance stuff they cant edit

Added isHR/isFinance + capability flags: canEditPersonal, canEditJob (HR/SuperAdmin), canEditBank, canEditPayroll (Finance/SuperAdmin).

HR: names, DOB, gender, blood group, all contact info (primary/secondary/emergency), work location, employment type, contract dates, start date, department, team, designation, work schedule, probation, role, and account-status toggle are editable.

Finance: bank name (Combobox), branch, account holder, account number, IFSC, plus the whole Earnings & Payroll (compensation) section are editable. Bank/payroll now locked for **employees** on their own profile too (previously bank was freely editable).

If employee want to change any detail message will go to manager then hr or finance then after all approval it will get saved

New screen created for change request -> it will show the requested employee profile edits
